Computer & Information
Sciences announces
distinguished speaker series

Mark your calendars!

OCTOBER 2, 2014

LUCY T. NOWELL

Computer Scientist and
Program Manager, ASCR,
Department of Energy's
Office of Science

*Science at Extreme
Scale: Big Data and
Big Compute*

FEBRUARY 17, 2015

JOEL SALTZ

Cherith Professor
and Founding Chair,
Biomedical Informatics,
Stony Brook University

*Integrative Multi-scale
Analysis in Biomedical
Informatics*

APRIL 30, 2015

SRINIVAS ALURU

Professor, School of
Computational Science
and Engineering, Georgia
Institute of Technology

*Genomes Galore: Big
Data Challenges in the
Life Sciences*

2014-15 Distinguished Speaker Series

The Department of Computer and Information Sciences proudly announces a special distinguished speaker series.

Topics will cover big data analytics in computer science and beyond, including climate sciences, biomedical informatics, and bioinformatics. An informal question and answer session with the distinguished speaker will follow each lecture.

The series is co-sponsored by the department and the University of Delaware NSF-ADVANCE and PDI STEM initiatives. It is organized in part by the CISTers (Women in Computer and Information Sciences) group and the WIE (Women in Engineering) program.

The speaker series is free and open to the public. For event information, call 302-831-2712.
